

Fully-Integrated Meal Delivery Systems

JonesZylon

Fully-Integrated Meal Delivery Systems

For decades, we've built our reputation on one idea: meal delivery should work as a system, not a collection of parts. This catalog brings that fully-integrated approach together in one place.

Fully-Integrated Trays, dinnerware, and carts all come from one vendor, so the right number of trays fit in the right cart and you deliver enough meals at one time. Everything is sized to work together, the first time and every time.

Purpose-Built Products Every product in this catalog is designed with the end user in mind. We pay attention to the details that matter: durability, functionality, temperature retention, and ease of use. Different needs, same commitment to getting it right.

Meal Delivery Systems for Any Process Whatever your workflow looks like, we have a system to support it. From high-volume service to individual delivery, from fast-paced environments to specialized settings, we offer solutions that fit the way you work.

Our Three Commitments to You

Experts in our industry. We know foodservice inside and out, and we put that knowledge to work helping you choose the right solution, not just the right product.

Innovative. We're always looking for better ways to solve the problems our customers face, whether that means a new product, a smarter design, or a fresh take on an old challenge.

Easy to do business with. From the first phone call to reorders years later, we aim to make every interaction simple, responsive, and straightforward.

DINNERWARE

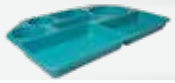

Correctional dinnerware is made to resist being made into a weapon. Copolymer material won't break into shards or sharpen into edges. It is made to be durable in a punishing environment. For the last 50 years JonesZylon has innovated to offer the best in class correctional dinnerware.

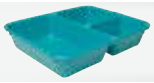

3-7 COMPARTMENT MEAL TRAYS

This broad line of meal trays offers proven solutions to any corrections application whether you serve in a cafeteria, transport to remote serving areas, or deliver to segregation units. All trays resist staining and scratching, are reinforced to maximize durability and have a unique slope angle to make each compartment look more full of food and easier to clean.

SmartTrays

SmartTrays are solid molded construction meal trays specifically designed to accommodate most menus, protect food, last longer and stack with stability to provide superior meal delivery.

servesmart PRODUCTS

SmartTrays

Item	Capacity/Oz.	Style	Copolymer	Flex	Dimensions	Stock Colors: Blue	Brick	Choc	Teal	Case Qty
		6 Compartment	SMART-5	SMARTB-5	13.4 x 9.25 x 1.9"	✓	✓	✓	✓	12

FEATURES of the SmartTrays

- 5 food compartments to accommodate most menus
- Compartments sealed off from one another to separate food
- Sized to fit SmartCarts perfectly for efficient meal delivery
- Tray bottom is the lid for the tray below it - No lids needed
- Ample compartment height to keep food off of tray bottom
- Can stack in either direction and without lids
- Flatware compartment
- Condiment compartment
- Lids available for top of stack
- Stock colors in Brick and Brown
- Good heat retention

SmartTray XD

Item	Capacity/Oz.	Style	Copolymer	Flex	Dimensions	Stock Colors: Blue	Brick	Choc	Teal	Case Qty
		6 Compartment	SMART-5-XD	SMART-5-XD	13.4 x 9.25 x 2.6"	✓	✓	✓	✓	10

FEATURES of the SmartTray XD

- Layout convenient for most menus
- Stackable without lids in straight stable column
- Over 2.5" total compartment depth prevents food from sticking to bottom of tray above
- Compartments sealed off from one another to separate food
- Sized to fit SmartCarts perfectly for efficient meal delivery
- Tray bottom is the lid for the tray below it - No lids needed
- Can stack in either direction and without lids

SmartTray LIDS

Item	Capacity/Oz.	Style	Copolymer	Flex	Dimensions	Stock Colors: Blue	Brick	Choc	Teal	Case Qty
		6 Compartment	SMARTL-5	SMARTLB-5	13.4 x 9.25 x .86"	✓	✓	✓	✓	12

FEATURES of the SmartTray Lids

- Compartment layout matches tray to seal off each compartment
- Can use as the one lid on top of each stack of trays
- Can also use a lid on each tray. Corner ribs on top help center each tray for a straight stable stack
- 0.63" compartment height helps keep food from sticking to inside bottom of lid
- Can interlock on a tray in either direction

MAXFLEX DINNERWARE

Max-Flex blend

- Proprietary polymer formulation
- Too soft to easily fashion into a weapon
- Material will tear instead of breaking
- Optimized durability and stiff enough to resist wear

- Significantly cheaper and more earth-friendly than silicon
- Reusable and recyclable
- Dishwasher safe

Copolymer *(copoly)*

- Economical
- Break, chip and crack resistant
- Withstands temperatures from 0 to 212°f
- Reusable and recyclable
- Dishwasher safe

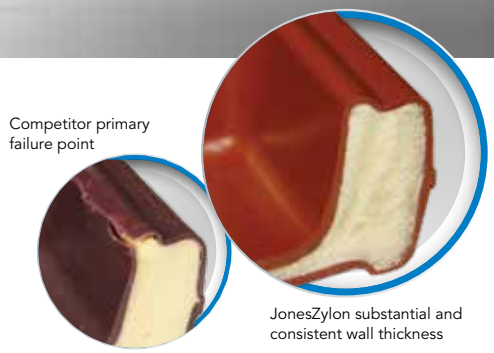

CUSTOM BLEND FULL-RANGE COLOR - $150 SETUP

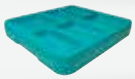

INSULATED TRAYS

The most durable insulated tray on the market!

- The enhanced design significantly increases wall thickness in the areas most vulnerable to fracturing, impeding water from getting inside the tray through cracks and holes.
- The corner plug is 'welded' in with a proprietary process that ensures a long lasting seal.
- The interior foam is modified with a hydrophobic additive that repels moisture, resisting your trays from becoming water-logged bacteria farms like other trays.

INSULATED TRAYS

Item	Description	Capacity/Oz.	Lid	Dimensions	Teal	Buff	Choc	Brick	Case Qty
	PRTS-4000 Bi-Directional 4-Compartment			14-7/8 x 13-1/4 x 2-3/8"		✓	✓	✓	12

STANDARD FEATURES

» Compartments individually seal when stacked. Hot stays hot, and cold stays cold.
» Material blend for superior impact resistance and durability
» Interior bead around perimeter for added strength
» Econamate® foam system completely fills interior area
» Temperature range; -40˚f to 190˚f; dishwasher safe
» Meets FDA requirements as a multi-use product for public food service

MaxFlex PRODUCTS

MaxFlex dinnerware is blended to maximize safety and durability

MAXFLEX DINNERWARE

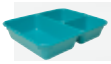

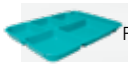

SAFE The specially formulated resin provides the ultimate in safety for your officers and inmates. Guaranteed! You cannot create a dangerous weapon out of this material. Ultra-flexible, it can't be sharpened. When melted, it does not harden when cooled.

- Perfect for high security and suicide watch populations.

DURABLE Blended with other materials to increase durometer

- While maintaining the safety feature, the material properties are modified to resist cutting and wear.
- Perfect to replace Styrofoam clamshells. You can save a lot of money by switching to this reusable product. Contact your JonesZylon representative for a free cost model to calculate your savings.

TUMBLERS, CUPS & MUGS

The Wave tumbler features a pattern of textured and smooth surfaces that provide a sure grip while reducing scratches. A smooth rim and smooth interior surface assures sanitary cleaning. Stacking lugs prevent sticking when stacking, even when put away wet and the 3-sided V-cut drain bottom speeds drying.

The Stacking Mug features a bottom ring that nests into the mouth of the mug below to allow straight, stable stacking. Wide, ergonomic handles allow for large fingers to have a comfortable grip.

EATING UTENSILS

SAFETY FLATWARE

Designed with a narrow neck to provide just enough strength to support a scoop of food yet too weak and flexible to easily be used as a weapon. The beaded edge provides for an easier grip.

BIG GRIP™ FLATWARE

It's as close as you can come to the heavy, rigid feel of real silverware. These comfortable-to-grip utensils feature handles that are thick and textured with ergonomic shapes.

Safety *Big Grip™*

MAXFLEX DINNERWARE

** All plates and bowls now available in MaxFlex except SRSB-15 Rimmed bowl.*

THE INCREDIBLE SPOONDLE

It's a spoon... It's a ladle... No, it's a spoondle™, a handy utensil for serving soups, potatoes, pastas, steamed vegetables and similar foods. This one comes with an interesting twist you won't find anywhere else. Its small bowl diameter prevents overfill, allowing for better portion control while the unique nose design allows you to get into the corners of the serving pan.

The JonesZylon spoondle™ is molded from a specially-formulated nylon material in bright colors, making it easy to distinguish different sizes.

You can't make weapons with JonesZylon spoondles™ as you can do with stainless steel products or replace them as frequently as you must with easier-to-break polycarbonates.

Item	Description	Dimensions *Length*	Choc	Green	Gray	Blue	Gold	Case Qty
	2 Oz. Perforated & Solid	11"	✓					6
	4 Oz. Perforated & Solid	11-3/8"		✓				6
	6 Oz. Perforated & Solid	11-7/8"			✓			6
	8 Oz. Perforated & Solid	12"				✓		6
	10 Oz. Perforated & Solid	12-1/4"					✓	6

FEATURES of the spoondles

- Available in 2, 4, 6, 8, or 10 oz
- Each size available in solid or perforated
- Stackable
- Spade-shaped head for much less waste in serving pan and superior portion control
- Serving sizes marked on handle
- Spoondles are color-coded by serving size
- Comfort-grip handle and convenient hanging hole
- Rigid, durable handle design
- Break and stain resistance
- Increased scratch resistance
- Durable
- Withstands temperatures from -40°f to 310°f
- Dishwasher safe
- Reusable and recyclable

PRO TIP

Use perforated bottomed spoondles for thick foods like mac-n-cheese. The holes prevent suction from holding the food so it will fall right out.

BULK FOOD HOLDING CABINETS

Prepare large batches of food and then hold in steam pans or on sheet pans until meal time. Keep the food at safe temperatures with active heat and active refrigeration. Multiple sizes/capacity to choose from. Mission Ready technology with removable heat boxes available. You can also use this equipment to transport bulk food from kitchen to satellite serving areas.

MISSION-READY TECHNOLOGY

The latest innovation in meal delivery carts features a self-contained heating unit that is both removable and interchangeable among multiple carts, including the standard "hot box", large capacity meal delivery carts and smaller capacity carts. All Mission-Ready carts have "snap-in" and interchangeable heaters to maximize your uptime! Washing and maintaining your cart has never been easier.

All equipment is certified for UL, DOE, and NSF, and has 1 year parts and labor warranty.

MISSION-READY HEATED CARTS

JZH-6UBT-RH

Features

- » Small meal delivery cart maneuvers through tight spaces such as old doorways and elevators.
- » Surprisingly good capacity and very Heavy Duty.
- » 6" multi-terrain casters
- » 30.75" width fits most all doorways
- » Heavy duty corrections package
- » Easy to see over while pushing
- » Can carry up to 14 4" pans
- » Transport tumblers, etc. on top
- » Solar digital thermometer
- » Low maintenance
- » 120v / 1700w / 14.2amp

STANDARD DUAL TEMP CARTS

Dual Temperature Carts are used in applications where the meal is served in two different trays. Put the hot food in one tray and place it in the heated compartment of the cart. Put the cold food, flatware and condiments in another tray and put it in the other compartment of the cart which can be ambient or refrigerated. Push the cart to housing unit and hand inmate both trays.

JZ-120 Series

HEATED & REFRIGERATED FOOD SERVICE EQUIPMENT

JZ-54

Features
- » Narrow meal delivery cart for small housing units.
- » Short profile to see over while transporting.
- » Fits 3 trays per layer and 18 high with lid on top of each stack
- » 21.5" width fits all doorways
- » Transport tumblers or drink service on top.
- » Built in thermometer
- » Top rail
- » Bottom baffle heat distribution
- » 120v / 1700w / 15amp *(if heated)*

Dimensions
Height: 47.8"
Width: 21.5"
Depth: 38.25"

Capacity
54 SmartTrays

JZ-6UBT-RH

Features
- » Small meal delivery cart for small to medium housing units or niche locations like medical.
- » Surprisingly good capacity for a small cart.
- » Fits 5 trays per layer and 18 high with lid on top of each stack
- » 30.75" width fits most doorways
- » Can fit sheet and bulk food pans
- » Built in thermometer
- » Transport tumblers, etc. on top
- » 120v / 1700w / 15amp *(if heated)*

Dimensions
Height: 47.3"
Width: 30.75"
Depth: 38.25"

Capacity
90 SmartTrays

JZ-136

Features
- » Medium meal delivery cart for mid-sized housing units.
- » Short profile to see over while transporting.
- » Fits 8 trays per layer and 17 high with lid on top of each stack
- » 31" width fits most doorways
- » Built in thermometer
- » Top rail
- » Bottom baffle heat distribution
- » 120v / 1700w / 15amp *(if heated)*

Dimensions
Height: 47.5"
Width: 54.88"
Depth: 31.0"

Capacity
136 SmartTrays

JZ-168

Features
- » Large meal delivery cart for larger housing units.
- » Short profile to see over with larger perimeter.
- » Can be configured for meal tray or bulk food pan delivery.
- » Fits 9 trays per layer and 17 high with lid on top of each stack
- » Center casters for easy maneuvering capable of turning on its own axis
- » Can fit sheet and bulk food pans
- » Built in thermometer
- » Transport tumblers, etc. on top
- » 120v / 1700w / 15amp *(if heated)*

EQUIPMENT OPTIONS AND ACCESSORIES

MISSION-READY SPECIFIC OPTIONS

	Option	Description
	Spare Heater	When heated equipment goes down, snap in a spare in seconds for Maximize Uptime!
	Bumper Guards	Protect the heat box from impacts with horizontal objects with front edge mounted bumper guards
	Insulated Panel	Substitute the heat box for an insulated panel to convert a heated cart to an ambient cart and vice versa
	JZH-198HD	Upgrade your JZH-198 to a Heavy Duty version for high abuse environments

	Option	Description
	Heat Box Lock	Choose either heat box lock mechanism to be able to use your institution pad locks or key lock slam latch
	Spare Heater Cabinet	Secure up to 8 spare heaters in a lockable stainless steel cabinet
	Shelves / Slides	Add shelves and/or racks and slides to your cart to make it easy to load and unload meal trays

GENERAL EQUIPMENT OPTIONS

No two correctional facilities are the same and neither are two food service operations the same. Each application requires specific solutions to specific problems. Below you will find many options to customize how your food service equipment works for you.

	Option	Description
	Uptime Maintenance Kit	All the critical spare parts for your JZ equipment in one convenient tool box. Don't wait for parts to fix needed equipment.
	Heavy Duty Upgrade Package	For high abuse environments harden the most vulnerable components to increase equipment durability
	Tow Package	Full chassis all welded steel frame. Pin style hitch locks in the up position without hardware. Rated for 8,000lbs
	Brake Assembly	"Deadman" brake assist engages when releasing push lever
	Premium Casters	Get the right caster for your application. concrete; cracks; outdoor; potholes; towing, etc. (see page 15)
	Floor Lock	Easy access foot pedal to lock cart in place. Ideal for transporting carts in a box truck.

	Option	Description
	Racks with Shelves / Slides	Customize racks, slides and shelves to accommodate your process to load and unload food
	Cold Plates	Freeze cold plates and place in mounting brackets of ambient section of a cart to keep food chilled longer
	Padlock Tether	Permanently chain pad locks to cart to prevent lock from being misplaced or stolen
	Exterior Shelving	Often used for beverage service, permanently mounted exterior shelves allow for maximum service versatility
	Drop-down Handle	Hinged handle allows carts to be "pulled" at a safe distance from heels

UPGRADE OPTIONS

	Option	Description
	Zinc-plated Casters	Long lasting corrosion resistant.
	8" Large Casters	Easier to push heavy duty longer lasting casters
	Top Perimeter Bumper	Protect all surface areas
	Removable Cord	Prevent theft
	220 Electric	Meet your facility requirements
	Motorized Casters	Eliminate physical strain and increase control

	Option	Description
	Active Breaking	Increase control and reduce risks
	MaxFlex Trays	Increase safety and reusability
	Pull-Out Drawer	Reduce strain and increase efficiency *JZH-54 and JZH-6UBT
	Braided Stainless Steel	Reduce damage time to cord
	Heater Bumper Guard	Provide heater an extra layer of protection

EXTENDED WARRANTY OPTION

1-year and 2-year extended warranty options available

DRYING RACKS

Full range of drying racks to accommodate mainline trays, insulated trays, segregation trays, tray lids, all sizes of steam table pans and lids, sheet pans, etc. Save space in your kitchen with high capacity drying racks. The unique plastic insert technology lowers initial costs, lowers replacement costs, is more sanitary. Extend the life of your trays by not running them over metal edges every day. Can mix-n-match plastic inserts to make a rack universal for multiple items. All heavy duty corrections construction.

- Center casters allow to turn on its own length
- 4-Sided top rail that doubles as a push/pull handle
- Stainless steel bolt latch, padlock-able

CASTERS

CASTER OPTIONS

		Recommended for:
	**HEAVY DUTY POLY** Heavy Duty polymer casters are for lighter carts and racks. They are hard for easy rolling over smooth surfaces.	» Drying and/or pan racks » Utility carts » Refrigerated holding cabinet
	**MULTI-TERRAIN** Multi-terrain Casters have some cushioning to better go over small cracks and joints such as tile and thresholds.	» Meal delivery carts » Hot box
	**PREMIUM MULTI-TERRAIN** Premium Multi-terrain Casters are easier to push as both starting force and continuing forces are lower. They have superior cushioning to handle more severed cracks and are especially quiet. Their kingpinless swivel design make them the best option for towing. They are more durable, needing to be replaced less often.	» Meal delivery carts » Hot box » Rougher terrain » Towing » Healthcare

STAGING CARTS

Optimus
where healthcare meal service is going

RETRIEVAL CARTS

Keep clean and soiled trays completely separate with our dedicated retrieval cart, designed to streamline post-meal collection in any healthcare setting. Holding up to 20 meals, the cart gives staff a sanitary, purpose-built solution for transporting used trays back from patient rooms—no more doubling up with delivery carts or risking cross-contamination. Its efficient capacity supports high-volume service while the enclosed design keeps soiled items contained and out of sight, helping your team maintain the hygiene standards patients and regulators expect.

Features	Dimensions	Casters
» Body constructed of non-corrosive, Hi-Tensile aluminum for strength and ease of mobility » Same size top an base extend past sidewalls to act as natural bumpers for protection » Top and sides are .063" aluminum and base is .125" aluminum » Extruded aluminum channels, 0.88" x 2.25" x .102", welded to top and base to form a solid frame » Door: Full length door swings 270° / Latchable to cabinet for convenience / Gravity-type latch secures door during transport » Pan Slides: Extruded angle supports 1" x 2" x .125" » Casters: Four 6" Extra Duty casters / Polyurethane (2 swivel with brake, 2 rigid) / Can turn on its own axis » Bumpers: Extended top and base act as a natural bumper for protection » Warranty: 5-year warranty against manufacturing defect / Lifetime guarantee against corrosion on aluminum parts	Height: 63.75" Width: 21.75" Depth: 31.50"	(4) 6" extra duty

TRAY STAGING CARTS

Every tray line starts somewhere. Our tray staging carts are built to be that starting point, holding clean trays at the head of the line so food service workers can quickly grab, plate, and load into a cart.

After trays come out of the dishwashing area, they need to get to the tray line efficiently. Four swivel casters make our staging carts easy to maneuver through tight kitchens and into position right where your team needs them. Constructed from welded aluminum, they stand up to the daily demands of a busy foodservice operation without the bulk or rust concerns of other materials.

As part of our fully-integrated meal delivery system, our staging carts are sized to work seamlessly with our trays and the rest of our equipment, the right fit every time.

Features	Dimensions	Casters	Capacity
» 6000 series aluminum construction » Sturdy construction specifically designed for the demanding environment » Trays: One stack of Optimus trays » Handles: Push/pull handles on one side » Casters: Four 6" poly casters (two swivel with brakes and two fixed) » Bumpers: Extended top and base act as a natural bumper for protection » Warranty: Lifetime guarantee against rust and corrosion (excluding casters and fasteners) 5-year guarantee against material defects and workmanship	Height: 50.00" Width: 17.75" Depth: 24.50"	(4) 6" poly	80 Optimus Trays
